Current employment data by branch, agency, and location; 13-month trends of employment, payroll, and turnover; and accession and separation rates are summarized in detailed statistical tables. Narrative analyses highlight each month's most important developments. Monthly employment data are occasionally supplemented by reports from other periodic surveys on the occupational, geographic, and wage and salary characteristics of Federal civilian employees. Please refer to the Table of Contents for the particular data that may be included in this report. The Data Source and Definition section provides details on the method of data collection and definitions of the classifications used in this publication.

This report was prepared under the direction of John E. Curnow, Chief Workforce Analysis and Statistics Division. The manager for this report was Andrew Spisak of the Surveys and Information Branch, Ronnie H. Byers, Chief. DATA SOURCE AND DEFINITIONS

Statistics in this report were collected by the Office of Personnel Management and are based on the Monthly Report of Federal Civilian Employment (Standard Form 113A), which is submitted by all departments and agencies of the Federal Government except the Central Intelligence Agency and the National Security Agency. OPM does not collect personnel data from the District of Columbia Government. Within this report, employment data are reported under the following categories:

WORK SCHEDULES

Full-time employees - those employees who are regularly scheduled to work the number of hours and days required by the administrative work-week for their employment group or class. (Most full-time employees have an administrative work-week of 5 days of 8 hours each.)

Part-time employees - those employees who are regularly employed on a pre-scheduled tour of duty which is less than the specified hours or days of work for full-time employees in the same group or class.

Intermittent employees - those employees who are employed on an irregular or occasional basis, with hours or days of work not on a prearranged schedule, and with compensation only for the time actually employed or for services actually rendered. As of January 1979, an intermittent employee who separated prior to the as-of date of the report is not counted.

Positions

Permanent position - one which has been established without time limit, or for a period of a year or more, or which, in any event, has been occupied for a year or more (regardless of the intent when it was established).

Temporary position - one which has been established for a limited period of less than a year and which has not been occupied for more than a year.

RELATED TO CEILING - includes all employees covered by the President's employment ceiling as of the report date. Disadvantaged youths under the Stay-In-School Campaign (Schedule A, excepted authority 213.3102(w)), the Summer Aid Program (Schedule A, excepted authority 213.3102(v)), and the Federal Junior Fellowship Program (Schedule A, excepted authority 213.3102(q)), and employees in the Worker Trainee Opportunity Program are excluded from personnel ceilings.

COMPETITIVE SERVICE

The competitive service consists of all civil service positions in the Executive branch except: (a) positions that are specifically excepted from the competitive service by or under statute; and (b) positions to which appointments are made by nomination for confirmation by the Senate, unless the Senate otherwise directs. The competitive service also includes civil service positions outside the Executive branch that are specifically included in the competitive service by statute.

EXCEPTED SERVICE AND SENIOR EXECUTIVE SERVICE

Title IV of the Civil Service Reform Act of 1978 created the Senior Executive Service (SES). Personnel in the Executive branch in managerial positions classifiable above GS-15 of the General Schedule and not designated above level IV of the Executive Schedule, or their equivalents, are in the SES. Exceptions include positions in government corporations, intelligence agencies, the FBI, and administrative law judges. The Foreign Service Act of 1980 created a Senior Foreign Service, effective February 15, 1981, which parallels the Senior Executive Service in most respects. Federal employees who are not in the competitive service or SES are in the excepted service. Examples of excepted positions include Vietnam Era Veterans serving under Veterans Readjustment Appointments, positions for which it is not practicable to hold competitive examinations, such as teachers in dependents' schools overseas and attorneys, positions of a policy-determining and confidential nature, and most positions in the Legislative and Judicial Branches. Foreign nationals holding jobs overseas are excepted by Executive Order.

Several tables in this publication report the number of Federal civilian employees in the competitive service and in the excepted service. Senior Executive Service employment is included in the excepted service in this Monthly Release since both excepted service and SES data are reported together on the 113A monthly report.

The following table lists those agencies and bureaus with significant numbers of employees in the excepted service.

APPOINTMENTS

Permanent Appointments - include 1) employees in the competitive service who hold career appointments and who either have completed probation or are not required to serve probation; 2) employees in the competitive service who hold career-conditional appointments, or who hold career appointments and are serving probation; 3) employees in the excepted service whose appointments carry no restrictions such as conditional, indefinite, specific time limitations, or trial periods; 4) employees in the excepted service who are serving trial periods or whose tenure is equivalent to career-conditional tenure in the competitive service; 5) employees in the Senior Executive Service (SES) serving under SES career appointments and SES non-career appointments.

Temporary and Indefinite Appointments - include all other employees who do not fall within any of the classifications described under Permanent Appointments.

ACCESSIONS AND SEPARATIONS

Accessions include appointments from civil service registers which are career or career-conditional appointments, excepted appointments, appointments to the Senior Executive Service, temporary appointments from registers, temporary appointments pending the establishment of registers, reappointments, reinstatements, restorations and returns to duty, and tranfers. Separations include quits, terminations, reductions in force, removals, transfers, extended leave without pay, suspensions, furloughs, deaths, retirements, and displacements. Turnover data are reported in this publication for the following categories.

Transfers - employees who, without a break in service of one full work day, change from a position in one agency to a position in another agency, including mass transfers of employees between agencies as a result of transfer of functions.

New Hires - new appointments of individuals who currently are not Federal civilian employees to positions in the competitive service, excepted service, and Senior Executive Service.

Restorations, Returns to Duty - includes employees who exercise reemployment rights following military sevice and those returning to duty following a reduction in force, from suspension or leave without pay that was scheduled to exceed 30 calendar days, from seasonal furlough, or pending action on reopening appeal.

Quits - any voluntary resignation or separation from a position.

As of January 1979 agencies were permitted to report data either as of (1) the last calendar day of the month, or (2) the end of the pay period closest to the end of the month, except at the end of the fiscal year when it must be as of the last calendar day of the month to meet assigned Office of Management and Budget (OMB) personnel ceilings.

SECTION I

FEDERAL CIVILIAN WORK FORCE STATISTICS

This section contains recent data dated "as of" two months prior to the publication date on the cover. The narrative analyses and personnel summaries in tables 1 and 17 present highlights and an overview of the information in Tables 2-16 and 18-31. Table 2 compares the current and previous month's Federal civilian employment by branch, agency, and area. Tables 3-6 and 16 include 13-month trends for employment, payrolls, Executive Branch employment by work schedule, and turnover.

It should be noted that the net difference in turnovers (accessions and separations) will not necessarily balance with net monthly changes in employment due to lags in the reporting of transfers and variations in agency reporting periods. A separation personnel action is generally not prepared for an employee who transfers to another agency until an accession notice is received by the losing agency.

Where figures are expressed in thousands, each is rounded independently and not forced to add to rounded totals. All figures are subject to revision. Several tables present employment data for the Washington, D.C. Standard Metropolitan Statistical Area (SMSA). The Washington, D.C. SMSA includes the District of Columbia; Arlington, Fairfax, Loudoun, and Prince William Counties, and the Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park in Virginia; and Charles, Montgomery, and Prince Georges Counties in Maryland.

MONTHLY RELEASE OF FEDERAL CIVILIAN WORK FORCE STATISTICS

Increases in employment also occurred in the U.S. Postal Service (+1,147), Transportation (+989), and Veterans Administration (+863). The largest decreases were reported by Agriculture (-6,728), Health and Human Services (-2,719), Interior (-2,426), Treasury (-1,476), and Commerce (-1,402).

The number of full-time employees with permanent appointments in the Executive Branch totaled 2,389,830 -- an increase of 8,345 from October. Defense (+14,446), particularly Army (+11,198), reported the largest increase. Increases also occurred in the Veterans Administration (+591) and Transportation (+366). Agencies with large decreases in the number of full-time employees with permanent appointments included Health and Human Services (-2,126), State (-1,068), Interior (-996), Treasury (-863), and Agriculture (-437).

The number of full-time employees with temporary or indefinite appointments in the Executive Branch decreased 14,288 to 155,703. Defense had the largest decrease (-8,989), mostly accounted for by Army (-9,699), which more than offset increases in Air Force (+542) and Navy (+218). Other agencies and departments with large decreases in full-time employees with temporary or indefinite appointments included Agriculture (-3,431) -- mostly in the Forest Service, Interior (-1,108), and Tennessee Valley Authority (-1,066). Increases were reported by State (+978), U.S. Postal Service (+696), and Transportation (+562), mainly in the FAA.

The number of part-time employees in the Executive Branch totaled 202,487 (+12,715), including 109,373 part-time workers employed by the U.S. Postal Service (+11,469). Defense reported an increase of 1,238. Health and Human Services (-172) reported the largest decrease in part-time employment in November.

The number of intermittent employees in the Executive Branch decreased 13,654 to 56,476 in November. The largest decrease among Executive departments was reported by Agriculture (-3,006), where the Farmers Home Administration, Forest Service, and Soil Conservation Service all had substantial declines. The independent U.S. Postal Service reported a large decrease of 10,907 intermittent workers. Army had 941 additional intermittent employees in November, and the Veterans Administration reported an increase of 412.

Employment in the competitive service totaled 1,689,155 in November (-1,135). There were 1,169,355 employees in the excepted service (-5,685). The number of employees with permanent appointments decreased by 284 in the competitive service and increased by 11,451 in the excepted service. The number of employees with temporary and indefinite appointments decreased in the competitive service by 851 and in the excepted service by 17,136.

Legislative Branch employment rose in November to 38,611 (+118); increases of 140 employees in the House of Representatives and 31 in the Senate caused the net increase. Judicial Branch employment decreased 56 in November to 15,403.

Employment by Geographic Area

Federal civilian employment in the United States totaled 2,729,324 in November (-7,665). Employment in the Washington, D. C., metropolitan area was 350,388 (-420), the lowest level since September 1977.

Federal civilian employment overseas was 129,186 (+845), of which 67,558 were U.S. citizens and 61,628 were non-U.S. citizens.

Payrolls

Federal civilian payrolls totaled $5,409,279,000 in November. Of this amount, $5,236,628,000 was paid to employees in the United States, including $817,877,000 in the Washington, D. C., metropolitan area.

NOTE TO READERS: Tables 1, 7, and 8 have been modified to report full-time employees in terms of appointment rather than position. These revisions coincide with changes in personnel management approaches effective in fiscal year 1982, which base controls on appointments as opposed to positions. The reader should also be aware that personnel ceiling controls for most agencies in the Executive Branch are now on a full-time equivalent/work year basis rather than on an end-of-fiscal-year employment target.

SECTION II

SPECIAL FEATURE TABLES AND NARRATIVES

This section contains miscellaneous Federal civilian employment statistics, which are not available on a monthly basis. The detailed tables, graphs, and narrative analyses will present employment changes, trend data, and/or special studies.

PROFILE OF PROFESSIONAL LEGAL PERSONNEL IN THE FEDERAL CIVILIAN WORK FORCE

Employment and Salaries

As of October 31, 1980, the number of full-time professional personnel in legal and kindred occupations in the Federal work force totaled 19,238. There are three professional series within the legal and kindred occupational group: general attorney (17,268 employees), administrative law judge (1,121 employees) and law clerk (849 employees). Employees in these three series earned an average annual salary of $37,135. Adminstrative law judges had the highest average salary -- $48,831. General attorneys earned an average of $37,140 per year, and law clerks annually earned $21,576 on the average.

Growth and Agency Distribution

The legal and kindred occupational group grew significantly in the period 1970-1980. In October, 1970, professional employees in this occupational group totaled 12,011, including 10,597 general attorneys. Between 1970 and 1980, professional legal personnel increased 60.2 percent, and the number of general attorneys increased 63.0 percent.

Table 32 reports the twenty Federal agencies that employed most general attorneys in 1980. The percentage changes since 1970 and agency ranks in 1980 and 1970 in terms of the number of general attorneys employed are also displayed.

During the period 1970-1980, the most striking increase occurred in the Equal Employment Opportunity Commission, which had a tenfold increase in the number of general attorneys. Other significant gains were reported by Health and Human Services and Labor. Veterans Administration, the only major agency to report a decrease between 1970 and 1980, had over 20 percent fewer general attorneys in 1980.

Administrative law judges hold "positions that involve the conduct of formal hearings, required by statute, in accordance with the Administrative Procedure Act (Public Law 79-404)." (Handbook of Occupational Groups and Series of Classes, U.S. Office of Personnel Management, p.90.) Over half of the 1,121 administrative law judges in 1980 were employed by Health and Human Services (682). Other large employers included the National Labor Relations Board (95), Labor (75), Occupational Safety and Health Review Commission (44), and Interstate Commerce Commission (41). In 1970, there were 587 hearing examiners -- the previous title of the administrative law judge series -- most of whom were employed by Health, Education, and Welfare (276), National Labor Relations Board (95), and Interstate Commerce Commission (86). The number of administrative law judges increased by over 90 percent between 1970 and 1980.

Law clerks perform "professional legal work requiring graduation from a recognized law school or equivalent experience, pending admission to the bar" (Handbook of Occupational Groups and Series of Classes, p. 89). Law clerks were employed by a number of Federal agencies, with the greatest concentrations in Justice (107), Treasury (101), and Labor (89).

Women and Minorities

Over 20 percent of the full-time professional employees in the legal and kindred group were women (4,258 of the total of 19,238). Nearly half of the law clerks were women (401 of a total of 849); women held only 49 of the 1,121 positions for administrative law judges. About 22 percent of the 17,268 general attorneys in 1980 were women. These figures represent a large increase in the proportion of women performing professional legal work in the Federal work force. In 1970 women held fewer than 4 percent of the professional legal jobs, including approximately 6 percent of the general attorney positions.

Similarly, there are indications that the proportion of minorities holding professional legal positions in the Federal work force has risen. A 1974 study of full-time permanent (FTP) employment in 32 agencies that accounted for over 70 percent of the FTP employment found that 5.1 percent of the general attorney jobs were held by minorities. In 1980 the proportions of minorities in full-time (permanent and temporary) general attorney positions government-wide was approximately 10 percent, including 7 percent for blacks.

DATA SOURCE AND DEFINITIONS

Statistics in this report were collected by the Office of Personnel Management and are based on the Monthly Report of Federal Civilian Employment (Standard Form 113A), which is submitted by all departments and agencies of the Federal Government except the Central Intelligence Agency and the National Security Agency. OPM does not collect personnel data from the District of Columbia Government. Within this report, employment data are reported under the following categories:

WORK SCHEDULES

Full-time employees - those employees who are regularly scheduled to work the number of hours and days required by the administrative work-week for their employment group or class. (Most full-time employees have an administrative work-week of 5 days of 8 hours each.)

Part-time employees - those employees who are regularly employed on a pre-scheduled tour of duty which is less than the specified hours or days of work for full-time employees in the same group or class.

Intermittent employees - those employees who are employed on an irregular or occasional basis, with hours or days of work not on a prearranged schedule, and with compensation only for the time actually employed or for services actually rendered. As of January 1979, an intermittent employee who separated prior to the as-of date of the report is not counted.

Positions

Permanent position - one which has been established without time limit, or for a period of a year or more, or which, in any event, has been occupied for a year or more (regardless of the intent when it was established).

Temporary position - one which has been established for a limited period of less than a year and which has not been occupied for more than a year.

RELATED TO CEILING - includes all employees covered by the President's employment ceiling as of the report date. Disadvantaged youths under the Stay-In-School Campaign (Schedule A, excepted authority 213.3102(w)), the Summer Aid Program (Schedule A, excepted authority 213.3102(v)), and the Federal Junior Fellowship Program (Schedule A, excepted authority 213.3102(q)), and employees in the Worker Trainee Opportunity Program are excluded from personnel ceilings.

COMPETITIVE SERVICE

The competitive service consists of all civil service positions in the Executive branch except: (a) positions that are specifically excepted from the competitive service by or under statute; and (b) positions to which appointments are made by nomination for confirmation by the Senate, unless the Senate otherwise directs. The competitive service also includes civil service positions outside the Executive branch that are specifically included in the competitive service by statute.

EXCEPTED SERVICE AND SENIOR EXECUTIVE SERVICE

Title IV of the Civil Service Reform Act of 1978 created the Senior Executive Service (SES). Personnel in the Executive branch in managerial positions classifiable above GS-15 of the General Schedule and not designated above level IV of the Executive Schedule, or their equivalents, are in the SES. Exceptions include positions in government corporations, intelligence agencies, the FBI, and administrative law judges. The Foreign Service Act of 1980 created a Senior Foreign Service, effective February 15, 1981, which parallels the Senior Executive Service in most respects. Federal employees who are not in the competitive service or SES are in the excepted service. Examples of excepted positions include Vietnam Era Veterans serving under Veterans Readjustment Appointments, positions for which it is not practicable to hold competitive examinations, such as teachers in dependents' schools overseas and attorneys, positions of a policy-determining and confidential nature, and most positions in the Legislative and Judicial Branches. Foreign nationals holding jobs overseas are excepted by Executive Order.

Several tables in this publication report the number of Federal civilian employees in the competitive service and in the excepted service. Senior Executive Service employment is included in the excepted service in this Monthly Release since both excepted service and SES data are reported together on the 113A monthly report.

The following table lists those agencies and bureaus with significant numbers of employees in the excepted service.

APPOINTMENTS

Permanent Appointments - include 1) employees in the competitive service who hold career appointments and who either have completed probation or are not required to serve probation; 2) employees in the competitive service who hold career-conditional appointments, or who hold career appointments and are serving probation; 3) employees in the excepted service whose appointments carry no restrictions such as conditional, indefinite, specific time limitations, or trial periods; 4) employees in the excepted service who are serving trial periods or whose tenure is equivalent to career-conditional tenure in the competitive service; 5) employees in the Senior Executive Service (SES) serving under SES career appointments and SES non-career appointments.

Temporary and Indefinite Appointments - include all other employees who do not fall within any of the classifications described under Permanent Appointments.

ACCESSIONS AND SEPARATIONS

Accessions include appointments from civil service registers which are career or career-conditional appointments, excepted appointments, appointments to the Senior Executive Service, temporary appointments from registers, temporary appointments pending the establishment of registers, reappointments, reinstatements, restorations and returns to duty, and tranfers. Separations include quits, terminations, reductions in force, removals, transfers, extended leave without pay, suspensions, furloughs, deaths, retirements, and displacements. Turnover data are reported in this publication for the following categories.

Transfers - employees who, without a break in service of one full work day, change from a position in one agency to a position in another agency, including mass transfers of employees between agencies as a result of transfer of functions.

New Hires - new appointments of individuals who currently are not Federal civilian employees to positions in the competitive service, excepted service, and Senior Executive Service.

Restorations, Returns to Duty - includes employees who exercise reemployment rights following military sevice and those returning to duty following a reduction in force, from suspension or leave without pay that was scheduled to exceed 30 calendar days, from seasonal furlough, or pending action on reopening appeal.

Quits - any voluntary resignation or separation from a position.

As of January 1979 agencies were permitted to report data either as of (1) the last calendar day of the month, or (2) the end of the pay period closest to the end of the month, except at the end of the fiscal year when it must be as of the last calendar day of the month to meet assigned Office of Management and Budget (OMB) personnel ceilings.

SECTION I

FEDERAL CIVILIAN WORK FORCE STATISTICS

This section contains recent data dated "as of" two months prior to the publication date on the cover. The narrative analyses and personnel summaries in tables 1 and 17 present highlights and an overview of the information in Tables 2-16 and 18-31. Table 2 compares the current and previous month's Federal civilian employment by branch, agency, and area. Tables 3-6 and 16 include 13-month trends for employment, payrolls, Executive Branch employment by work schedule, and turnover.

It should be noted that the net difference in turnovers (accessions and separations) will not necessarily balance with net monthly changes in employment due to lags in the reporting of transfers and variations in agency reporting periods. A separation personnel action is generally not prepared for an employee who transfers to another agency until an accession notice is received by the losing agency.

Where figures are expressed in thousands, each is rounded independently and not forced to add to rounded totals. All figures are subject to revision. Several tables present employment data for the Washington, D.C. Standard Metropolitan Statistical Area (SMSA). The Washington, D.C. SMSA includes the District of Columbia; Arlington, Fairfax, Loudoun, and Prince William Counties, and the Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park in Virginia; and Charles, Montgomery, and Prince Georges Counties in Maryland.

MONTHLY RELEASE OF FEDERAL CIVILIAN WORK FORCE STATISTICS
EMPLOYMENT ANALYSIS - DECEMBER 1981

Executive, Legislative, and Judicial Branches

The number of Federal civilian employees at the end of December, 1981, was virtually unchanged from the previous month's total. As of December 31, the Federal civilian workforce totaled 2,858,744, an increase of 310 employees. The number of full-time employees with permanent appointments increased 1,897 to 2,424,025. Full-time employees with temporary and indefinite appointments decreased 3,540 to 172,152. Part-time employment decreased 1,039 to 202,362, and intermittent employment increased 2,992 to 60,205.

Executive Branch employment stood at 2,804,776 at the end of December, an increase of 349 workers. This figure includes 671,742 employees in the independent U.S. Postal Service and 26,179 employees exempt from personnel controls in Youth Programs and the Worker Trainee Opportunity Program. The Postal Service reported the largest increase (+5,570), reflecting seasonal hiring for Christmas. Defense had 3,380 additional employees as of December 31, with Army (+1,079), Navy (+1,037), and Air Force (+979) reporting increases. The largest decreases occurred in Health and Human Services (-2,326), Agriculture (-2,100), Tennessee Valley Authority (-1,076), and Interior (-941).

The number of full-time employees with permanent appointments in the Executive Branch totaled 2,391,679, a gain of 1,903 from November. Agriculture reported the largest increase (+3,408), accounted for by the conversion of intermittent employees in the Forest Service to a full-time seasonal work schedule. Defense had an additional 2,144 full-time employees with permanent appointments led by Army's increase of 1,235. The agencies with the largest decreases in full-time permanent employment were Health and Human Services (-1,983), Treasury (-1,013), and the General Services Administration (-313).

Full-time employees with temporary or indefinite appointments in the Executive Branch totaled 152,185, a decrease of 3,512 from November. Agriculture reported the largest decrease (-1,822), mostly in the Forest Service. Tennessee Valley Authority (-1,073), Interior (-602), and Commerce (-342) also declined. Defense reported an overall increase of 414 full-time employees with temporary and indefinite appointments, with increases in Navy (+581) and Air Force (+287) surpassing a decrease in Army (-561).

Part-time employment in the Executive Branch stood at 201,440 (-1,035), with over half of the total employed by the U.S. Postal Service -- 107,959 (-1,414). Defense reported an increase of 781 to 20,873. Health and Human Services and the Veterans Administration both reported decreases of 184 part-time employees in December.

The number of intermittent employees in the Executive Branch increased 2,993 to 59,472 in December. The net increase was caused by an additional 6,582 seasonal workers employed by the Postal Service for Christmas. Agriculture, led by the Forest Service, reported the largest decrease in intermittent employment (-3,725).

Employment in the competitive service totaled 1,686,456 in December (-2,635). There were 1,172,288 employees in the excepted service (+2,945). The number of employees with permanent appointments decreased by -4,085 in the competitive service and increased by 8,914 in the excepted service. The number of employees with temporary and indefinite appointments increased in the competitive service by 1,450 and decreased in the excepted service by 5,969.

Legislative Branch employment decreased slightly in December to 38,543 (-61). Judicial Branch employment increased 22 in December to 15,425.

Employment by Geographic Area

Federal civilian employment in the United States totaled 2,728,903 in December (-345). Employment in the Washington, D. C., metropolitan area was 350,512 (+175).

Federal civilian employment overseas was 129,841 (+655), of which 68,041 were U.S. citizens and 61,800 were non-U.S. citizens.

Payrolls

Federal civilian payrolls totaled $5,427,979,000 in December. Of this amount, $5,192,353,000 was paid to employees in the United States, including $763,319,000 in the Washington, D. C., metropolitan area.

NOTE TO READERS: Tables 1, 7, and 8 have been modified to report full-time employees in terms of appointment rather than position. These revisions coincide with changes in personnel management approaches effective in fiscal year 1982, which base controls on appointments as opposed to positions. The reader should also be aware that personnel ceiling controls for most agencies in the Executive Branch are now on a full-time equivalent/workyear basis rather than on an end-of-fiscal-year employment target for the number of employees.

Most Federal civilian employees (65%) worked in the Department of Defense (971,107 -- 34%), U.S. Postal Service (667,229 -- 23%), and Veterans Administration (237,925 -- 8%). These agencies have employees in all states as shown on Table 32. During 1980, employment levels went up slightly in these three agencies as follows: Defense Department up 4,254 (0.4%) U.S. Postal Service up 1,283 (0.2%), and Veterans Administration up 4,421 (1.9%).

Work Schedules

Table 33 presents Federal civilian employment within the United States by state and work schedule as of December 31, 1980. Most civil servants nationwide (2,433,000 -- 88.2%) worked a full-time work schedule, usually a forty hour workweek. Another 222,000 (8.0%) worked part-time on a regular schedule such as four hours each workday. The remaining 104,000 (3.8%) worked intermittently (not on a regular schedule). Most intermittent employees worked for Agriculture and U.S. Postal Service (mail delivery substitutes). Employment in some states showed considerable differences from the nationwide work schedule distribution. Full-time employment ranged from 94.4% of total employment in Hawaii to 74.4% in Vermont; part-time employment ranged from 15.3% in Iowa to 4.0% in Hawaii; and intermittent employment ranged from 14.8% in Idaho and Montana to 1.4% in New Jersey. From 1979 to 1980, full-time employment remained nearly constant (up 0.3%) while part-time and intermittent employment increased significantly (9.2%) due primarily to the U.S. Postal Service increase of 8.2%.

State Trends

The long-term trend from 1969 to 1980 showed great changes among the states, although Federal civilian employment nationwide increased only 2.0 percent. Thirty-five states gained and fifteen states lost Federal civilian employment between 1969 and 1980. Ten states showed changes of at least 10,000 Federal civilian employees as follows: Tennessee +29,136; Maryland +14,463; Virginia +13,630; Florida +12,654; Oklahoma -10,529; Ohio -10,602; Illinois -10,763; Pennsylvania -12,357; California -14,006; and New York -24,245. Eleven states showed percentage changes over 20% as follows: New Hampshire +192%, Tennessee +69%, Idaho +38%, Mississippi +36%, Arizona +35%, Wyoming +32%, Montana +25%, West Virginia +22%, Colorado +21%, Oregon +21%, and Vermont +20.4%. Only two states showed percentage drops under -20%: Rhode Island -40% and Maine -44%. Table 34 presents Federal civilian employment by state from 1969 to 1980.

Data Source

The major source for these data is the Central Personnel Data File (CPDF), augmented by special reports from some agencies for use in the Annual Report of Employment by Geographic Area. No data are received from members and employees of Congress or from most of the Judicial Branch with the exception of the Administrative Office of the U.S. Courts. The Central Intelligence Agency and National Security Agency are exempt from reporting by law. Questions on geographic distributions of Federal civilian employment may be directed to Ms. Christine Steele at (202) 632-5417.

DATA SOURCE AND DEFINITIONS

tatistics in this report were collected by the Office of Personnel Management and are based on the Monthly Report f Federal Civilian Employment (Standard Form 113A), which is submitted by all departments and agencies of the Federal overnment except the Central Intelligence Agency and the National Security Agency. OPM does not collect personnel data rom the District of Columbia Government. Within this report, employment data are reported under the following ategories:

WORK SCHEDULES

Full-time employees - those employees who are regularly scheduled to work the number of hours and days required by the administrative work-week for their employment group or class. (Most full-time employees have an administrative work-week of 5 days of 8 hours each.)

Part-time employees - those employees who are regularly employed on a pre-scheduled tour of duty which is less than the specified hours or days of work for full-time employees in the same group or class.

Intermittent employees - those employees who are employed on an irregular or occasional basis, with hours or days of work not on a prearranged schedule, and with compensation only for the time actually employed or for services actually rendered. As of January 1979, an intermittent employee who separated prior to the as-of date of the report is not counted.

Positions

Permanent position - one which has been established without time limit, or for a period of a year or more, or which, in any event, has been occupied for a year or more (regardless of the intent when it was established).

Temporary position - one which has been established for a limited period of less than a year and which has not been occupied for more than a year.

RELATED TO CEILING - includes all employees covered by the President's employment ceiling as of the report date. Disadvantaged youths under the Stay-In-School Campaign (Schedule A, excepted authority 213.3102(w)), the Summer Aid Program (Schedule A, excepted authority 213.3102(v)), and the Federal Junior Fellowship Program (Schedule A, excepted authority 213.3102(q)), and employees in the Worker Trainee Opportunity Program are excluded from personnel ceilings.

COMPETITIVE SERVICE

The competitive service consists of all civil service positions in the Executive branch except: (a) positions that are specifically excepted from the competitive service by or under statute; and (b) positions to which appointments are made by nomination for confirmation by the Senate, unless the Senate otherwise directs. The competitive service also includes civil service positions outside the Executive branch that are specifically included in the competitive service by statute.

EXCEPTED SERVICE AND SENIOR EXECUTIVE SERVICE

Title IV of the Civil Service Reform Act of 1978 created the Senior Executive Service (SES). Personnel in the Executive branch in managerial positions classifiable above GS-15 of the General Schedule and not designated above level IV of the Executive Schedule, or their equivalents, are in the SES. Exceptions include positions in government corporations, intelligence agencies, the FBI, and administrative law judges. The Foreign Service Act of 1980 created a Senior Foreign Service, effective February 15, 1981, which parallels the Senior Executive Service in most respects. Federal employees who are not in the competitive service or SES are in the excepted service. Examples of excepted positions include Vietnam Era Veterans serving under Veterans Readjustment Appointments, positions for which it is not practicable to hold competitive examinations, such as teachers in dependents' schools overseas and attorneys, positions of a policy-determining and confidential nature, and most positions in the Legislative and Judicial Branches. Foreign nationals holding jobs overseas are excepted by Executive Order.

Several tables in this publication report the number of Federal civilian employees in the competitive service and in the excepted service. Senior Executive Service employment is included in the excepted service in this Monthly Release since both excepted service and SES data are reported together on the 113A monthly report.

The following table lists those agencies and bureaus with significant numbers of employees in the excepted service.

Permanent Appointments - include 1) employees in the competitive service who hold career appointments and who either have completed probation or are not required to serve probation; 2) employees in the competitive service who hold career-conditional appointments, or who hold career appointments and are serving probation; 3) employees in the excepted service whose appointments carry no restrictions such as conditional, indefinite, specific time limitations, or trial periods; 4) employees in the excepted service who are serving trial periods or whose tenure is equivalent to career-conditional tenure in the competitive service; 5) employees in the Senior Executive Service (SES) serving under SES career appointments and SES non-career appointments.

Temporary and Indefinite Appointments - include all other employees who do not fall within any of the classifications described under Permanent Appointments.

ACCESSIONS AND SEPARATIONS

Accessions include appointments from civil service registers which are career or career-conditional appointments, excepted appointments, appointments to the Senior Executive Service, temporary appointments from registers, temporary appointments pending the establishment of registers, reappointments, reinstatements, restorations and returns to duty, and trenfers. Separations include quits, terminations, reductions-in-force, removals, transfers, extended leave without pay, suspensions, furloughs, deaths, retirements, and displacements. Turnover data are reported in this publication for the following categories.

Transfers - employees who, without a break in service of one full work day, change from a position in one agency to a position in another agency, including mass transfers of employees between agencies as a result of transfer of functions.

New Hires - new appointments of individuals who currently are not Federal civilian employees to positions in the competitive service, excepted service, and Senior Executive Service.

Restorations, Returns to Duty - includes employees who exercise reemployment rights following military sevice and those returning to duty following a reduction-in-force, from suspension or leave without pay that was scheduled to exceed 30 calendar days, from seasonal furlough, or pending action on reopening appeal.

Quits - any voluntary resignation or separation from a position.

As of January 1979 agencies were permitted to report data either as of (1) the last calendar day of the month, or (2) the end of the pay period closest to the end of the month, except at the end of the fiscal year when it must be as of the last calendar day of the month to meet assigned Office of Management and Budget (OMB) personnel ceilings.

SECTION I

FEDERAL CIVILIAN WORK FORCE STATISTICS

This section contains recent data dated "as of" two months prior to the publication date on the cover. The narrative analyses and personnel summaries in tables 1 and 17 present highlights and an overview of the information in Tables 2-16 and 18-31. Table 2 compares the current and previous month's Federal civilian employment by branch, agency, and area. Tables 3-6 and 16 include 13-month trends for employment, payrolls, Executive Branch employment by work schedule, and turnover.

It should be noted that the net difference in turnovers (accessions and separations) will not necessarily balance with net monthly changes in employment due to lags in the reporting of transfers and variations in agency reporting periods. A separation personnel action is generally not prepared for an employee who transfers to another agency until an accession notice is received by the losing agency.

Where figures are expressed in thousands, each is rounded independently and not forced to add to rounded totals. All figures are subject to revision. Several tables present employment data for the Washington, D.C. Standard Metropolitan Statistical Area (SMSA). The Washington, D.C. SMSA includes the District of Columbia; Arlington, Fairfax, Loudoun, and Prince William Counties, and the Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park in Virginia; and Charles, Montgomery, and Prince Georges Counties in Maryland.

MONTHLY RELEASE OF FEDERAL CIVILIAN WORKFORCE STATISTICS
EMPLOYMENT ANALYSIS - JANUARY 1982

Executive, Legislative, and Judicial Branches

There were 12,000 fewer Federal civilian employees at the end of January 1982, than at the end of December 1981. As of January 31, the Federal civilian workforce totaled 2,846,323. The number of full-time employees with permanent appointments decreased 11,580 to 2,412,337. Full-time employees with temporary and indefinite appointments increased 10,098 to 182,253. Part-time employment increased 2,587 to 204,938, and intermittent employment decreased 13,408 to 46,797.

Executive Branch employment stood at 2,791,743 at the end of January, a decrease of 12,915 workers. This figure included 663,429 employees in the independent U.S. Postal Service and 25,670 employees exempt from personnel controls in Youth Programs and the Worker Trainee Opportunity Program. The Postal Service reported the largest decrease (-8,313), reflecting the separation of seasonal workers hired for the Christmas season. Decreases also occurred in Agriculture (-2,187), Tennessee Valley Authority (-951), Interior (828), Labor (-863), Commerce (-670), and Defense (-623). Treasury reported the only notable increase (+4,361), as the Internal Revenue Service began to increase staff for the tax reporting period.

The number of full-time employees with permanent appointments in the Executive Branch totaled 2,379,914, a decline of 11,657 from December. Defense reported the largest decrease (-11,899), as Army corrected the designation of approximately 11,600 foreign nationals employed overseas from permanent to indefinite appointments. Labor (-937), Interior (-554), and Commerce (-430) also reported decreases. The agencies with the largest increases of full-time employees with permanent appointments were Treasury (+2,245 -- due to IRS hiring) and Agriculture (+2,086 -- as the Forest Service continued to correct the designation of intermittent employees to full-time (seasonal) status).

Full-time employees with temporary or indefinite appointments in the Executive Branch totaled 161,748 -- an increase of 9,560 from December. Army had the largest increase (+11,521), reflecting the correction noted above. Tennessee Valley Authority (-700) and Agriculture (-689) reported the largest decreases.

Part-time employment in the Executive Branch stood at 203,995 (+2,566), with over half of the total employed by the U.S. Postal Service --109,139 (+1,180). Treasury had the largest increase (+1,297), mostly in the IRS. In Commerce, an increase of 1,564 part-time employees in the National Oceanic and Atmospheric Administration was offset by a decrease of 1,629 part-time workers in the Census Bureau.

The number of intermittent employees in the Executive Branch decreased 13,384 to 46,088 in January. The decrease was led by the separation of 9,684 seasonal workers hired by the Postal Service for the Christmas season. Agriculture, led by the Forest Service, reported a decrease of 3,602 intermittent employees.

Employment in the competitive service totaled 1,686,109 in January (-260). There were 1,160,214 employees in the excepted service (-12,043). The number of employees with permanent appointments increased by 390 in the competitive service and decreased by 20,823 in the excepted service. The number of employees with temporary and indefinite appointments decreased in the competitive service by 650 and increased in the excepted service by 8,780.

Legislative Branch employment increased in January to 39,058 (+515). Judicial Branch employment increased 97 in January to 15,522.

Employment by Geographic Area

Federal civilian employment in the United States totaled 2,716,754 in January (-12,031). Employment in the Washington, D. C., metropolitan area declined by 2,372 and dropped below the 350,000 level -- to 348,068 -- for the first time since April 1976.

Federal civilian employment overseas was 129,569 (-272), of which 68,021 were U.S. citizens and 61,548 were non-U.S. citizens.

Payrolls

Federal civilian payrolls totaled $5,336,241,000 in January. Of this amount, $5,138,414,000 was paid to employees in the United States, including $761,129,000 in the Washington, D. C., metropolitan area.

NOTE TO READERS: Tables 1, 7, and 8 have been modified to report full-time employees in terms of appointment rather than position. These revisions coincide with changes in personnel management approaches effective in fiscal year 1982, which base controls on appointments as opposed to positions. The reader should also be aware that personnel ceiling controls for most agencies in the Executive Branch are now on a full-time equivalent/workyear basis rather than on an end-of-fiscal-year employment target for the number of employees.

DATA SOURCE AND DEFINITIONS

Statistics in this report were collected by the Office of Personnel Management and are based on the Monthly Report of Federal Civilian Employment (Standard Form 113A), which is submitted by all departments and agencies of the Federal Government except the Central Intelligence Agency and the National Security Agency. OPM does not collect personnel data from the District of Columbia Government. Within this report, employment data are reported under the following categories:

WORK SCHEDULES

Full-time employees - those employees who are regularly scheduled to work the number of hours and days required by the administrative work-week for their employment group or class. (Most full-time employees have an administrative work-week of 5 days of 8 hours each.)

Part-time employees - those employees who are regularly employed on a pre-scheduled tour of duty which is less than the specified hours or days of work for full-time employees in the same group or class.

Intermittent employees - those employees who are employed on an irregular or occasional basis, with hours or days of work not on a prearranged schedule, and with compensation only for the time actually employed or for services actually rendered. As of January 1979, an intermittent employee who separated prior to the as-of date of the report is not counted.

Positions

Permanent position - one which has been established without time limit, or for a period of a year or more, or which, in any event, has been occupied for a year or more (regardless of the intent when it was established).

Temporary position - one which has been established for a limited period of less than a year and which has not been occupied for more than a year.

RELATED TO CEILING - includes all employees covered by the President's employment ceiling as of the report date. Disadvantaged youths under the Stay-In-School Campaign (Schedule A, excepted authority 213.3102(w)), the Summer Aid Program (Schedule A, excepted authority 213.3102(v)), and the Federal Junior Fellowship Program (Schedule A, excepted authority 213.3102(q)), and employees in the Worker Trainee Opportunity Program are excluded from personnel ceilings.

COMPETITIVE SERVICE

The competitive service consists of all civil service positions in the Executive branch except: (a) positions that are specifically excepted from the competitive service by or under statute; and (b) positions to which appointments are made by nomination for confirmation by the Senate, unless the Senate otherwise directs. The competitive service also includes civil service positions outside the Executive branch that are specifically included in the competitive service by statute.

EXCEPTED SERVICE AND SENIOR EXECUTIVE SERVICE

Title IV of the Civil Service Reform Act of 1978 created the Senior Executive Service (SES). Personnel in the Executive branch in managerial positions classifiable above GS-15 of the General Schedule and not designated above level IV of the Executive Schedule, or their equivalents, are in the SES. Exceptions include positions in government corporations, intelligence agencies, the FBI, and administrative law judges. The Foreign Service Act of 1980 created a Senior Foreign Service, effective February 15, 1981, which parallels the Senior Executive Service in most respects. Federal employees who are not in the competitive service or SES are in the excepted service. Examples of excepted positions include Vietnam Era Veterans serving under Veterans Readjustment Appointments, positions for which it is not practicable to hold competitive examinations, such as teachers in dependents' schools overseas and attorneys, positions of a policy-determining and confidential nature, and most positions in the Legislative and Judicial Branches. Foreign nationals holding jobs overseas are excepted by Executive Order.

Several tables in this publication report the number of Federal civilian employees in the competitive service and in the excepted service. Senior Executive Service employment is included in the excepted service in this Monthly Release since both excepted service and SES data are reported together on the 113A monthly report.

The following table lists those agencies and bureaus with significant numbers of employees in the excepted service.

APPOINTMENTS

Permanent Appointments - include 1) employees in the competitive service who hold career appointments and who either have completed probation or are not required to serve probation; 2) employees in the competitive service who hold career-conditional appointments, or who hold career appointments and are serving probation; 3) employees in the excepted service whose appointments carry no restrictions such as conditional, indefinite, specific time limitations, or trial periods; 4) employees in the excepted service who are serving trial periods or whose tenure is equivalent to career-conditional tenure in the competitive service; 5) employees in the Senior Executive Service (SES) serving under SES career appointments and SES non-career appointments.

Temporary and Indefinite Appointments - include all other employees who do not fall within any of the classifications described under Permanent Appointments.

ACCESSIONS AND SEPARATIONS

Accessions include appointments from civil service registers which are career or career-conditional appointments, excepted appointments, appointments to the Senior Executive Service, temporary appointments from registers, temporary appointments pending the establishment of registers, reappointments, reinstatements, restorations and returns to duty, and tranfers. Separations include quits, terminations, reductions-in-force, removals, transfers, extended leave without pay, suspensions, furloughs, deaths, retirements, and displacements. Turnover data are reported in this publication for the following categories.

Transfers - employees who, without a break in service of one full work day, change from a position in one agency to a position in another agency, including mass transfers of employees between agencies as a result of transfer of functions.

New Hires - new appointments of individuals who currently are not Federal civilian employees to positions in the competitive service, excepted service, and Senior Executive Service.

Restorations, Returns to Duty - includes employees who exercise reemployment rights following military sevice and those returning to duty following a reduction-in-force, from suspension or leave without pay that was scheduled to exceed 30 calendar days, from seasonal furlough, or pending action on reopening appeal.

Quits - any voluntary resignation or separation from a position.

As of January 1979 agencies were permitted to report data either as of (1) the last calendar day of the month, or (2) the end of the pay period closest to the end of the month, except at the end of the fiscal year when it must be as of the last calendar day of the month to meet assigned Office of Management and Budget (OMB) personnel ceilings.

SECTION I

FEDERAL CIVILIAN WORK FORCE STATISTICS

This section contains recent data dated "as of" two months prior to the publication date on the cover. The narrative analyses and personnel summaries in tables 1 and 17 present highlights and an overview of the information in Tables 2-16 and 18-31. Table 2 compares the current and previous month's Federal civilian employment by branch, agency, and area. Tables 3-6 and 16 include 13-month trends for employment, payrolls, Executive Branch employment by work schedule, and turnover.

It should be noted that the net difference in turnovers (accessions and separations) will not necessarily balance with net monthly changes in employment due to lags in the reporting of transfers and variations in agency reporting periods. A separation personnel action is generally not prepared for an employee who transfers to another agency until an accession notice is received by the losing agency.

Where figures are expressed in thousands, each is rounded independently and not forced to add to rounded totals. All figures are subject to revision. Several tables present employment data for the Washington, D.C. Standard Metropolitan Statistical Area (SMSA). The Washington, D.C. SMSA includes the District of Columbia; Arlington, Fairfax, Loudoun, and Prince William Counties, and the Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park in Virginia; and Charles, Montgomery, and Prince Georges Counties in Maryland.

SECTION II

FULL-TIME EQUIVALENT EMPLOYMENT NARRATIVE AND TABLE

This section contains statistics on Full-time Equivalent civilian employment in the Executive Branch.

Full-Time Equivalent Employment

Beginning in Fiscal Year 1982 Executive Branch employment has been controlled by full-time equivalent (FTE), rather than end-of-year employment, ceilings. Under the FTE system, the number of paid hours worked by all ceiling controlled employees, including full-time, part-time and intermittent employees, are added together and then expressed in terms of FTE work years. One work year is the number of hours worked in a year by an employee on a full time work schedule (52 weeks of 40 hours, or 2,080 hours). Thus, for example, one FTE work year can represent a single full-time employee in the Federal workforce, or it could represent two part-time employees, each of whom work 20 hours a week.

The Federal government adopted the FTE system of personnel accounting because it is more closely related to budgetary factors, and therefore represents a better management tool in the process of matching personnel resources to the financial resources available to pay for them. OPM will also continue to provide data showing total on-board employment, to allow comparison both with FTE data and with employment data from previous years.

There are several major exceptions to the FTE reporting, however: the Defense Authorization Act (Public Law 97-86) exempts civilian employees in military functions of the Department of Defense from FTE controls. U.S. Postal Service employment, which by law is not subject to presidential control, is also excluded, as are several smaller independent agencies, such as the Federal Reserve Board and the International Trade Commission.

FTE Employment Through February 1982

For the FY 1982 reporting period through February, most agencies were well within their annual FTE work year estimates as shown in the FY 83 Budget recently submitted by the President. The percentage of total work years (37.0) reported by those agencies under FTE work year controls is below the percentage of the fiscal year elapsed (38.5) through the reporting period. The relationship between the two figures is likely to change during certain months, as seasonal hiring in various agencies takes place. FTE work year figures may exceed or lag yearly estimates from month to month; what is important is that the actual not exceed the estimated figures at year's end. In the meantime, agency officials and budget analysts have a good running account of how their employment picture stacks up, and they may easily relate that information to budgetary analyses.

It is estimated that Federal employees in non-DOD and non-USPS agencies will accumulate 1,134,100 FTE work years in FY 1982. The following table provides full-time equivalent data for selected agencies.

DATA SOURCE AND DEFINITIONS

Statistics in this report were collected by the Office of Personnel Management and are based on the Monthly Report of Federal Civilian Employment (Standard Form 113A), which is submitted by all departments and agencies of the Federal Government except the Central Intelligence Agency and the National Security Agency. OPM does not collect personnel data from the District of Columbia Government. Within this report, employment data are reported under the following categories:

WORK SCHEDULES

Full-time employees - those employees who are regularly scheduled to work the number of hours and days required by the administrative work-week for their employment group or class. (Most full-time employees have an administrative work-week of 5 days of 8 hours each.)

Part-time employees - those employees who are regularly employed on a pre-scheduled tour of duty which is less than the specified hours or days of work for full-time employees in the same group or class.

Intermittent employees - those employees who are employed on an irregular or occasional basis, with hours or days of work not on a prearranged schedule, and with compensation only for the time actually employed or for services actually rendered. As of January 1979, an intermittent employee who separated prior to the as-of date of the report is not counted.

Positions

Permanent position - one which has been established without time limit, or for a period of a year or more, or which, in any event, has been occupied for a year or more (regardless of the intent when it was established).

Temporary position - one which has been established for a limited period of less than a year and which has not been occupied for more than a year.

RELATED TO CEILING - includes all employees covered by the President's employment ceiling as of the report date. Disadvantaged youths under the Stay-In-School Campaign (Schedule A, excepted authority 213.3102(w)), the Summer Aid Program (Schedule A, excepted authority 213.3102(v)), and the Federal Junior Fellowship Program (Schedule A, excepted authority 213.3102(q)), and employees in the Worker Trainee Opportunity Program are excluded from personnel ceilings.

COMPETITIVE SERVICE

The competitive service consists of all civil service positions in the Executive branch except: (a) positions that are specifically excepted from the competitive service by or under statute; and (b) positions to which appointments are made by nomination for confirmation by the Senate, unless the Senate otherwise directs. The competitive service also includes civil service positions outside the Executive branch that are specifically included in the competitive service by statute.

EXCEPTED SERVICE AND SENIOR EXECUTIVE SERVICE

Title IV of the Civil Service Reform Act of 1978 created the Senior Executive Service (SES). Personnel in the Executive branch in managerial positions classifiable above GS-15 of the General Schedule and not designated above level IV of the Executive Schedule, or their equivalents, are in the SES. Exceptions include positions in government corporations, intelligence agencies, the FBI, and administrative law judges. The Foreign Service Act of 1980 created a Senior Foreign Service, effective February 15, 1981, which parallels the Senior Executive Service in most respects. Federal employees who are not in the competitive service or SES are in the excepted service. Examples of excepted positions include Vietnam Era Veterans serving under Veterans Readjustment Appointments, positions for which it is not practicable to hold competitive examinations, such as teachers in dependents' schools overseas and attorneys, positions of a policy-determining and confidential nature, and most positions in the Legislative and Judicial Branches. Foreign nationals holding jobs overseas are excepted by Executive Order.

Several tables in this publication report the number of Federal civilian employees in the competitive service and in the excepted service. Senior Executive Service employment is included in the excepted service in this Monthly Release since both excepted service and SES data are reported together on the 113A monthly report.

The following table lists those agencies and bureaus with significant numbers of employees in the excepted service.

APPOINTMENTS

Permanent Appointments - include 1) employees in the competitive service who hold career appointments and who either have completed probation or are not required to serve probation; 2) employees in the competitive service who hold career-conditional appointments, or who hold career appointments and are serving probation; 3) employees in the excepted service whose appointments carry no restrictions such as conditional, indefinite, specific time limitations, or trial periods; 4) employees in the excepted service who are serving trial periods or whose tenure is equivalent to career-conditional tenure in the competitive service; 5) employees in the Senior Executive Service (SES) serving under SES career appointments and SES non-career appointments.

Temporary and Indefinite Appointments - include all other employees who do not fall within any of the classifications described under Permanent Appointments.

ACCESSIONS AND SEPARATIONS

Accessions include appointments from civil service registers which are career or career-conditional appointments, excepted appointments, appointments to the Senior Executive Service, temporary appointments from registers, temporary appointments pending the establishment of registers, reappointments, reinstatements, restorations and returns to duty, and tranfers. Separations include quits, terminations, reductions in force, removals, transfers, extended leave without pay, suspensions, furloughs, deaths, retirements, and displacements. Turnover data are reported in this publication for the following categories.

Transfers - employees who, without a break in service of one full work day, change from a position in one agency to a position in another agency, including mass transfers of employees between agencies as a result of transfer of functions.

New Hires - new appointments of individuals who currently are not Federal civilian employees to positions in the competitive service, excepted service, and Senior Executive Service.

Restorations, Returns to Duty - includes employees who exercise reemployment rights following military sevice and those returning to duty following a reduction in force, from suspension or leave without pay that was scheduled to exceed 30 calendar days, from seasonal furlough, or pending action on reopening appeal.

Quits - any voluntary resignation or separation from a position.

As of January 1979 agencies were permitted to report data either as of (1) the last calendar day of the month, or (2) the end of the pay period closest to the end of the month, except at the end of the fiscal year when it must be as of the last calendar day of the month to meet assigned Office of Management and Budget (OMB) personnel ceilings.

SECTION I

FEDERAL CIVILIAN WORK FORCE STATISTICS

This section contains recent data dated "as of" two months prior to the publication date on the cover. The narrative analyses and personnel summaries in tables 1 and 17 present highlights and an overview of the information in Tables 2-16 and 18-31. Table 2 compares the current and previous month's Federal civilian employment by branch, agency, and area. Tables 3-6 and 16 include 13-month trends for employment, payrolls, Executive Branch employment by work schedule, and turnover.

It should be noted that the net difference in turnovers (accessions and separations) will not necessarily balance with net monthly changes in employment due to lags in the reporting of transfers and variations in agency reporting periods. A separation personnel action is generally not prepared for an employee who transfers to another agency until an accession notice is received by the losing agency.

Where figures are expressed in thousands, each is rounded independently and not forced to add to rounded totals. All figures are subject to revision. Several tables present employment data for the Washington, D.C. Standard Metropolitan Statistical Area (SMSA). The Washington, D.C. SMSA includes the District of Columbia; Arlington, Fairfax, Loudoun, and Prince William Counties, and the Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park in Virginia; and Charles, Montgomery, and Prince Georges Counties in Maryland.

MONTHLY RELEASE OF FEDERAL CIVILIAN WORKFORCE STATISTICS
EMPLOYMENT ANALYSIS - MARCH 1982

Executive, Legislative, and Judicial Branches

The Federal civilian workforce totaled 2,855,505 as of March 31, 1982. This represents an increase of 2,926 employees from February. The number of full-time employees with permanent appointments increased 2,573 to 2,423,414. Full-time employees with temporary and indefinite appointments numbered 179,942 (+280). Part-time employment decreased 329 in March to 203,902 and intermittent employment increased 402 to 48,247.

Executive Branch employment stood at 2,800,949 at the end of March (+2,699) including 663,876 employees in the independent U.S. Postal Service and 24,990 employees exempt from personnel controls in Youth Programs and the Worker Trainee Opportunities Program. Among Executive Branch departments, the Department of Defense reported the largest increase in employment to 1,018,098 (+5,549), with the Army (+3,833), Air Force (+710), Navy (+609), and Defense Logistics (+133) reporting large increases. The largest decreases were reported by the General Services Administration (-507), Commerce (-486), Office of Personnel Management (-401), Tennessee Valley Authority (-376), and Health and Human Services (-317).

The number of full-time employees with permanent appointments in the Executive Branch totaled 2,390,865, an increase of 2,731 from February. Defense reported the largest increase of 2,514. The International Communications Agency increased by 1,968 (as adjustments are made in the work schedules of overseas national workers) and Agriculture by 924. The largest decreases were reported in Commerce (-616) and Health and Human Services (-486). Also, ACTION reported a decrease of 323, largely due to the departure of the Peace Corps which became an independent agency.

Full-time employees with temporary or indefinite appointments in the Executive Branch totaled 159,651 -- a decrease of 41 from February. Defense had the largest increase (+1,487) and the Tennessee Valley Authority had the largest decrease (-283).

Part-time (regularly scheduled) employment in the Executive Branch stood at 202,943 (-356), with more than half of the total employed by the U. S. Postal Service -- 107,999. Defense had the largest increase (+567) and Agriculture, due to conversion of part-time to full-time employment during the seasonal period, had the largest decrease of 464. The number of intermittent employees in the Executive Branch increased by 365 to 47,490 in March. Defense increased the most (+981). Decreases were largest in Agriculture (-421), due largely to conversion of intermittent to full-time seasonal employment. Treasury decreased by 165 workers.

Employment in the competitive service totaled 1,694,567 in March (+3,132). There were 1,160,938 employees in the excepted service (-206). SPECIAL FEATURE TABLES AND NARRATIVES

This section contains information on the FY 77-81 Trend of Federal Civilian Employee Accession and Separation Categories and Rates for the Executive Branch.

Fiscal Year 1977 - 1981 Trend of Federal Civilian Employee Accession and Separation Categories and Rates for the Executive Branch (excluding U.S. Postal Service)

by Christine E. Steele

Introduction

While the Monthly Release presents a continuing analysis of month to month employment and turnover, this article summarizes the seasonal turnover occurring each year as well as turnover trends for fiscal years 1977 through 1981. During this time period Federal civilian employment in the Executive Branch less U.S. Postal Service has remained fairly stable (averaging about 2,175,000) with around 535,000 accessions and 531,000 separations each year (excluding interagency transfers). Much of this turnover activity involves temporary and seasonal appointments which contribute to accession and separation totals but have relatively little impact on average employment.

Data Source and Agency Coverage

Statistics in this report were collected by the U.S. Office of Personnel Management from the Monthly Report of Federal Civilian Employment on the Standard Form 113-A which is submitted by all Federal departments and agencies except the Central Intelligence Agency and National Security Agency which are exempted from reporting by law. This article presents the data on Executive Branch agencies excluding the U.S. Postal Service and the CIA and NSA. Due to differences in coverage definitions and time periods, we caution readers about comparing these data to: (1) other data sources such as OPM's Central Personnel Data File (CPDF), or (2) other data with different coverage such as "total Federal civilian employment".

Employment Coverage

Each month, agencies report their ending employment and all their accessions, competitive and other new hires, separations, and quits. These reports cover permanent employees as well as temporary and seasonal employees. The net government-wide difference in accessions and separations will not balance with net monthly changes in employment due to variations in agency reporting periods and the way transfers occur between agencies. The main thrust of this article involves Executive Branch accessions and separations and, therefore, individual and mass transfers between agencies have been removed from the accessions and separations presented here. On the average, total transfers amount to about 40,000 per year or only four percent of total accessions and separations. Even though mass transfers are excluded, it should be noted that major reorganizations can also result in early retirements, higher than normal quits and other separations. (Data presented by agency elsewehere in the Monthly Release do include transfers since they represent gains or losses to the agency.)

Annual Agency Turnover

The larger agencies naturally have the most accessions and separations. In fiscal year 1981, the agencies with at least 10,000 accessions and 10,000 separations (including transfers) were: Treasury, Defense (Army, Navy, Air Force and Other Defense Agencies), Interior, Agriculture, Commerce, Health and Human Services, Tennessee Valley Authority, and Veterans Administration.

Seasonal Turnover

Fiscal year turnover data reflect several recurring major annual seasonal employment changes which are reported in each Monthly Release. Interior (National Park Service) and Agriculture (U.S. Forest Service) hire about 25,000 summer outdoor workers for the national parks and forests in April/July who leave in July/October. In addition another 25,000 temporary summer employees are hired by many other agencies in May/June who leave in August/September. The Internal Revenue Service in the Department of Treasury hires about 10,000 workers for the tax reporting period in January/February who leave in May. The Department of Defense's Office of Dependents Schools hires about 8,000 teachers in September who leave the rolls in June. (Commerce hires temporary Census enumerators every ten years; the 325,000 enumerators in FY80 have been removed from the FY80 data presented here.)

Turnover Trend

Since January 1981 accessions have exceeded separations in the Department of Defense and Social Security Administration in the Department of Health and Human Services, while separations exceeded accessions in most other Executive Branch departments and agencies. Although the Veterans Administration reported a large number of accessions, these were more than offset by separations. The dismissal of some 11,000 striking air traffic controllers by the Federal Aviation Administration in the Department of Transportation had a pronounced effect on the August and September 1981 turnover data. The following table shows the accessions and separations of Federal civilian employees (excluding transfers) for fiscal years 1977 through 1981. The accession and separation category definitions appear at the end of this article.

Turnover Categories Trend

Accessions (excluding transfers) were composed on the average of 85 percent new hires and 15 percent restorations and returns to duty (primarily, although not totally, composed of seasonal workers); this average fluctuated very slightly over the past five fiscal years. Within the accession category, new hires to the Competitive Service comprised 36 percent; however, there was a distinct jump from 24 percent in FY 77 and 25 percent in FY 78 to 39 percent in FY 79, 46 percent in FY80, and 45 percent in FY 81. Career-conditional (permanent) appointments fell off (from 17 percent to 11 percent of accessions) while temporary competitive new hires rose sharply (from 5 percent to 25 percent of accessions). New hires in the Excepted Service and the Senior Executive Service averaged 49 percent of accessions and dropped from 55 percent in FY 77 to 41 percent in FY81. Quits/resignations accounted for 40 percent of employees separating from Federal civilian service; quits have remained fairly stable (39-42 percent) during these past five fiscal years.

Turnover Rates Trend

Turnover data may be expressed as percentage rates based on average employment for that turnover period; note that accessions and separations together comprise turnover, and separate rates can be computed for each; such rates are generally not meaningfully combined to yield an "overall turnover" rate. During FY77-81, turnover rates averaged 24.6 percent for accessions (excluding transfers), 20.9 percent for new hires, 24.4 percent for separations (excluding transfers), and 9.8 percent for quits/resignations. Seasonal and temporary appointments account for accession, new hire and separation rates being at the 20 percent level; turnover rates for full-time permanent employees are approximately half the 20 percent level. Turnover rates generally rose gradually during FY 77-80 and fell off in FY 81. The accession rate was the lowest in FY 81 while all the other turnover rates were lowest in FY 77.

SECTION II - Full-Time Federal Civilian Employment in White- and Blue-Collar Occupations as of October 31, 1981 101

DATA SOURCE AND DEFINITIONS

Statistics in this report were collected by the Office of Personnel Management and are based on the Monthly Report of Federal Civilian Employment (Standard Form 113A), which is submitted by all departments and agencies of the Federal Government except the Central Intelligence Agency and the National Security Agency. OPM does not collect personnel data from the District of Columbia Government. Within this report, employment data are reported under the following categories:

WORK SCHEDULES

Full-time employees - those employees who are regularly scheduled to work the number of hours and days required by the administrative work-week for their employment group or class. (Most full-time employees have an administrative work-week of 5 days of 8 hours each.)

Part-time employees - those employees who are regularly employed on a pre-scheduled tour of duty which is less than the specified hours or days of work for full-time employees in the same group or class.

Intermittent employees - those employees who are employed on an irregular or occasional basis, with hours or days of work not on a prearranged schedule, and with compensation only for the time actually employed or for services actually rendered. As of January 1979, an intermittent employee who separated prior to the as-of date of the report is not counted.

Positions

Permanent position - one which has been established without time limit, or for a period of a year or more, or which, in any event, has been occupied for a year or more (regardless of the intent when it was established).

Temporary position - one which has been established for a limited period of less than a year and which has not been occupied for more than a year.

RELATED TO CEILING - includes all employees covered by the President's employment ceiling as of the report date. Disadvantaged youths under the Stay-In-School Campaign (Schedule A, excepted authority 213.3102(w)), the Summer Aid Program (Schedule A, excepted authority 213.3102(v)), and the Federal Junior Fellowship Program (Schedule A, excepted authority 213.3102(q)), and employees in the Worker Trainee Opportunity Program are excluded from personnel ceilings.

FULL-TIME EQUIVALENT EMPLOYMENT

Beginning in Fiscal Year 1982 the full-time equivalent (FTE) resource management system replaced the Executive Branch numerical end-of-year personnel ceilings which had been used to control the size of the Federal workforce for many years. Under the FTE system, workforce estimates assigned to agencies are based on the number of work years required to achieve agency missions and objectives. (One work year is equivalent to 2,080 hours of work which could mean, for example, one employee on a full-time schedule of 40 hours for 52 weeks, or two part-time employees for 20 hours per week each for the same period.) One of the work year estimates assigned to an agency defines the maximum cumulative number of hours that can be worked during the year by full-time employees with permanent appointments; the other is based on the maximum cumulative number of hours that can be worked by all employees covered by ceiling controls, including full-time, part-time and intermittent employees. Each hour worked in the agency during the course of the year (with the exception of overtime and certain other exempt work) is accrued under one of these related-to-ceiling categories. The full-time equivalency for the current period is the sum of the straight time hours worked during the 2-week report period by ceiling-related employees divided by 160; this is the number of hours available to a full-time employee during the reporting period.

COMPETITIVE SERVICE

The competitive service consists of all civil service positions in the Executive Branch except: (a) positions that are specifically excepted from the competitive service by or under statute; and (b) positions to which appointments are made by nomination for confirmation by the Senate, unless the Senate otherwise directs. The competitive service also includes civil service positions outside the Executive branch that are specifically included in the competitive service by statute.

EXCEPTED SERVICE AND SENIOR EXECUTIVE SERVICE

Title IV of the Civil Service Reform Act of 1978 created the Senior Executive Service (SES). Personnel in the Executive Branch in managerial positions classifiable above GS-15 of the General Schedule and not designated above level IV of the Executive Schedule, or their equivalents, are in the SES. Exceptions include positions in government corporations, intelligence agencies, the FBI, and administrative law judges. The Foreign Service Act of 1980 created a Senior Foreign Service, effective February 15, 1981, which parallels the Senior Executive Service in most respects. Federal employees who are not in the competitive service or SES are in the excepted service. Examples of excepted positions include Vietnam Era Veterans serving under Veterans Readjustment Appointments, positions for which it is not practicable to hold competitive examinations, such as teachers in dependents' schools overseas and attorneys, positions of a policy-determining and confidential nature, and most positions in the Legislative and Judicial Branches. Foreign nationals holding jobs overseas are excepted by Executive Order.

Several tables in this publication report the number of Federal civilian employees in the competitive service and in the excepted service. Senior Executive Service employment is included in the excepted service in this *Monthly Release* since both excepted service and SES data are reported together on the 113A monthly report.

The following table lists those agencies and bureaus with significant numbers of employees in the excepted service.

APPOINTMENTS

Permanent Appointments - include 1) employees in the competitive service who hold career appointments and who either have completed probation or are not required to serve probation; 2) employees in the competitive service who hold career-conditional appointments, or who hold career appointments and are serving probation; 3) employees in the excepted service whose appointments carry no restrictions such as conditional, indefinite, specific time limitations, or trial periods; 4) employees in the excepted service who are serving trial periods or whose tenure is equivalent to career-conditional tenure in the competitive service; 5) employees in the Senior Executive Service (SES) serving under SES career appointments and SES non-career appointments.

Temporary and Indefinite Appointments - include all other employees who do not fall within any of the classifications described under Permanent Appointments.

ACCESSIONS AND SEPARATIONS

Accessions include appointments from civil service registers which are career or career-conditional appointments, excepted appointments, appointments to the Senior Executive Service, temporary appointments from registers, temporary appointments pending the establishment of registers, reappointments, reinstatements, restorations and returns to duty, and tranfers. Separations include quits, terminations, reductions in force, removals, transfers, extended leave without pay, suspensions, furloughs, deaths, retirements, and displacements. Turnover data are reported in this publication for the following categories.

Transfers - employees who, without a break in service of one full work day, change from a position in one agency to a position in another agency, including mass transfers of employees between agencies as a result of transfer of functions.

New Hires - new appointments of individuals who currently are not Federal civilian employees to positions in the competitive service, excepted service, and Senior Executive Service.

Restorations, Returns to Duty - includes employees who exercise reemployment rights following military sevice and those returning to duty following a reduction in force, from suspension or leave without pay that was scheduled to exceed 30 calendar days, from seasonal furlough, or pending action on reopening appeal.

Quits - any voluntary resignation or separation from a position.

As of January 1979 agencies were permitted to report data either as of (1) the last calendar day of the month, or (2) the end of the pay period closest to the end of the month, except at the end of the fiscal year when it must be as of the last calendar day of the month to meet assigned Office of Management and Budget (OMB) personnel ceilings.

SECTION I

FEDERAL CIVILIAN WORK FORCE STATISTICS

This section contains recent data dated "as of" two months prior to the publication date on the cover. The narrative analyses and personnel summaries in tables 1 and 17 present highlights and an overview of the information in Tables 2-16 and 18-31. Table 2 compares the current and previous month's Federal civilian employment by branch, agency, and area. Tables 3-6 and 16 include 13-month trends for employment, payrolls, Executive Branch employment by work schedule, and turnover.

It should be noted that the net difference in turnovers (accessions and separations) will not necessarily balance with net monthly changes in employment due to lags in the reporting of transfers and variations in agency reporting periods. A separation personnel action is generally not prepared for an employee who transfers to another agency until an accession notice is received by the losing agency.

Where figures are expressed in thousands, each is rounded independently and not forced to add to rounded totals. All figures are subject to revision. Several tables present employment data for the Washington, D.C. Standard Metropolitan Statistical Area (SMSA). The Washington, D.C. SMSA includes the District of Columbia; Arlington, Fairfax, Loudoun, and Prince William Counties, and the Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park in Virginia; and Charles, Montgomery, and Prince Georges Counties in Maryland.

SECTION II

SPECIAL FEATURE TABLES AND NARRATIVE

FULL-TIME EQUIVALENT EMPLOYMENT NARRATIVE AND TABLE

This section contains statistics on Full-time Federal Civilian Employment in White- and Blue-Collar Occupations

Full-Time Federal Civilian Employment in White- and Blue-Collar Occupations as of October 31, 1981

by Christine E. Steele

Employment Totals

There were 1,964,906 full-time Federal civilian employees covered by the most recent occupational survey as of October 31, 1981 (see below for a description of the survey's data sources). Most workers (1,512,837 or 77%) were in professional, scientific, administrative and support-type jobs commonly referred to as white-collar occupations; the remaining workers (452,069 or 23%) were in blue-collar occupations. Women comprised 46% of white-collar employment and 9% of blue-collar employment.

Major Geographic Areas

Federal white-collar workers may be working anywhere in the world but 97% (1,463,935) worked in the United States; 17% (261,273) worked in the Washington, D.C. Standard Metropolitan Statistical Area (SMSA) and 79% (1,202,662) had duty stations throughout the fifty states. Federal blue-collar workers were also primarily employed in the fifty states (412,519 or 91%), but only 29,557 (7%) worked in the Washington, D.C. area.

Average Annual Salaries

Average annual salary data are based on basic rates of pay and exclude overtime, premium pay for night work or unusual hours, and post differentials or cost-of-living allowances paid to employees serving outside the 48 contiguous states. The average annual salary of all white-collar employees as of October 31, 1981 was $23,113; average salaries for men and women were $27,830 and $17,483, respectively. Average annual salaries are generally higher in the Washington, D.C. SMSA than elsewhere since most agencies have their headquarters and senior managers in the Nations's Capital; the overall average white-collar salary in the Washington, D.C. area was $27,446 with $33,846 for men and $20,485 for women. The worldwide average salary for the blue-collar workforce as of October 31, 1981 was $20,044; average salaries for blue-collar men and women were $20,431 and $16,041, respectively.

Major Agencies

The Defense Department employed forty percent of all Federal civilian white-collar workers: Army (230,575), Navy (164,164), Air Force (140,411), Defense Logistics Agency (35,905), and other Defense agencies (28,507). The four other major employers of white-collar workers were the Veterans Administration (164,062), Health and Human Services (126,352), Treasury (110,699), and Agriculture (106,738). Nearly three of every four blue-collar workers were employed by the Defense Department: Army (98,916), Navy (134,969), Air Force (86,849), Defense Logistics Agency (8,795), and other Defense agencies (1,347). Other major blue-collar employers were Veterans Administration (35,063), Tennessee Valley Authority (27,702), General Services Administration (12,522), and Interior (10,142).

White-Collar Occupations

White-collar workers are classified into more than 400 different occupations which are organized into 22 groups. For example, the Legal and Kindred Group includes the occupation General Attorney. The following Table E-1 distributes the full-time Federal civilian employment in white-collar occupations as of October 31, 1981 by group, occupation, and selected agency. More than a quarter (429,713 or 28%) of the white-collar workers had an occupation in the General Administrative, Clerical and Office Services Group. The other large white-collar groups were: Engineering and Architecture (154,210 or 10%); Medical, Hospital, Dental, and Public Health (134,762 or 9%); and Accounting and Budget (123,250 or 8%).

Blue-Collar Occupations

The various kinds of work performed by blue-collar employees have been defined in more than 400 different occupations which are organized into 37 job family groups. (Blue-collar occupations and groups have been consolidated during the past few years.) The following Table B distributes the full-time Federal civilian employment in blue-collar occupations as of October 31, 1981 by group, occupation, and selected agency. Half (225,727 or 50%) of the blue-collar employees worked in eight occupational groups: Electronic Equipment Installation and Maintenance (23,865), Electrical Installation and Maintenance (24,453), General Services and Support Work (37,720), Metal Work (25,579), Transportation/Mobile Equipment Operation (28,627), Transportation/Mobile Equipment Maintenance (23,041), Warehousing and Stock Handling (39,762), and Food Preparation and Serving (22,680).

Data Source

The major source for these data was the Central Personnel Data File (CPDF), augmented by special reports from six agencies for use in the occupational survey. No data were received from members and employees of Congress or from most of the Judicial Branch with the exception of the Administrative Office of the U.S. Courts. The Central Intelligence Agency and National Security Agency are exempt from reporting by law. The U.S. Postal Service, Postal Rate Commission, Board of Governors of the Federal Reserve System, and foreign nationals employed overseas were also excluded from the survey.
